

2018 Annual Report

History and Mission

The Davis Family Foundation is a public charitable foundation founded in 1986 by Mr. and Mrs. H. Halsey Davis of Falmouth, Maine, to support areas of particular interest to them. These areas are:

1. **Educational Organizations:** colleges, universities, and other educational institutions. (Grants are not made to public elementary and secondary schools, nor to schools that receive financial support from a church or other religious organization. Trustees will consider requests from other *educational organizations* whose purpose is to promote systemic change in education or provide innovative programs whose objectives are to improve education).
2. **Medical Organizations:** hospitals, clinics and medical research organizations. (Trustees will consider requests from other *similar* health organizations for programs designed to increase the effectiveness or decrease the cost of medical care.)
3. **Cultural and Arts Organizations:** organizations whose *customary and primary activity* is to promote music, theater, drama, history, literature, the arts or other similar cultural activities.

By agreement with the Internal Revenue Service, the Foundation is restricted in its grantmaking to the above three categories.

Policies and Application Procedure

The Foundation accepts applications only from organizations that are tax-exempt under Section 501(c)(3) of the IRS code and not private foundations under Section 509(a) of the code. The Foundation has a 509(a)(3) status and is prohibited from making grants to other 509(a)(3) organizations. The Foundation will need evidence of the applicant's 501(c)(3) and 509(a) status.

Geographic priorities: 1. Southern Maine; 2. Other parts of Maine; 3. Other parts of New England are a low priority.

The Foundation does not make grants to individuals, religious programs, fellowships, annual giving campaigns or for loans. The Foundation does not normally provide support for general operating needs (including ongoing salaries). Grants to endowment campaigns and scholarships have a low priority. Unless there are compelling reasons to do so, the Foundation does not award multiple-year grants. Organizations that receive a grant are required to wait 24 months from the deadline date before submitting subsequent requests. In addition, declined applicants should not submit a request for the same project within 12 months from the deadline date.

Trustees meet in March, June, September and December to consider requests. The respective submission deadlines are February 10, May 10, August 10 and November 10. Applications for deadlines that fall on a holiday or weekend must be received by the next business day. The Foundation does not accept applications via e-mail or mail. You may access the online application and submission guidelines by visiting our website. Proposals are judged on their merits and in comparison to others received. The Foundation normally notifies applicants of the Trustees' decision within one week of each regular meeting, and applicants receiving grants may expect to receive payment within a month of notification. Organizations that receive grants from the Foundation are expected to submit completion reports.
